---

As a Master of Computer Applications (MCA) specializing in backend development, I bring a strong focus on Node.js and proficiency in the MERN stack to the table. Actively contributing to the creation of scalable web applications, my expertise lies in crafting robust backend architectures that power seamless user experiences. Thriving in dynamic environments, I showcase exceptional adaptability, flexibility, and a collaborative approach within teams. I am passionate about leveraging cutting-edge technologies to drive innovation and excellence in every project I undertake

## WORK EXPERIENCE

---

<b>2023 – current</b>	<b><i>nodejs Developer</i></b>	<b>Artoon solution pvt Ltd</b>	<b>Surat (India)</b>
<ul style="list-style-type: none"><li>Developed and maintained real-time multiplayer game server logic using Node.js and Socket.io.</li><li>Implemented scalable data management with Redis for caching and real-time player updates.</li><li>Utilized Socket.io for seamless communication between players and the game server, optimizing MongoDB schemas for efficient data storage and retrieval.</li><li>Collaborated with the frontend development team to integrate game features and ensure smooth communication between client and server</li></ul>

<ul style="list-style-type: none"><li>Worked as part of a maintenance team, responsible for resolving bugs and issues reported by clients in a timely manner. –</li><li>Collaborated closely with the frontend and QA teams to understand, reproduce, and debug reported issues effectively.</li><li>Analyzed codebase to identify root causes of bugs and implemented efficient fixes to improve software stability.</li><li>Utilized Node.js, and JavaScript, to implement bug fixes and updates across various modules of the application.</li><li>Communicated directly with clients to gather feedback, understand requirements, and provide technical support. - Contributed to code reviews</li><li>collaborated with team members to maintain code quality and best practices</li></ul>			

## RELEVANT SKILLS

---

- **Computer skills:** Microsoft Office ,
- Coding Languages : Java , JavaScript , Nodejs , typeScript
- Database : Mysql , Redis , MongoDB
- Framework : Express , react ,
- **Technical:** Coding
- **Professional/Social:** Teamwork, Project- Management, Communication, Leadership, Organization, Problem-solving,
- **Languages:** Native Language, Marathi (proficient), English (fluent), Hindi(proficient)?

## EDUCATION

---

**2021   master of computer Application      Jawaharlal Nehru Engineering College (Aurangabad, India)**

In my MCA program, I studied a variety of subjects related to computer science and applications. This included in-depth coursework in programming languages, database management, software engineering, computer networks, algorithms, and web development. Additionally, I gained practical experience through projects and internships, with a focus on honing my skills in backend development using technologies like Node.js and working with the MERN stack

**2019   Bachelor of Computer Applications (BCA)**

In my MCA program, I studied a variety of subjects related to computer science and applications. This included in-depth coursework in programming languages, database management, software engineering, computer networks, algorithms, and web development
